SYNOPSIS

After trying out their luck with a desperate composer, three very strange chipmunks; Alvin, Simon and Theodore, decide to make Dave's house their home. The chipmunks soon realise that they need to convince Dave to let them live there, and show him that not only can they walk like people, but that they can also sing! They soon become a musical sensation, while Dave becomes something more than their composer, he becomes their father. But problems arise when the chipmunks begin to enjoy their success and rebel against Dave.
